

REACTION

FLIP, MOVE & NEST

REACTION

These user-friendly mobile tables can be arranged, re-arranged and stored away in the blink of an eye. Reaction is a great option for paired eating in classroom environments, workspaces or multipurpose rooms. Reaction is the ultimate training table.

FLIP. Reaction's remote touch release enables users to quickly flip and fold with a single hand. Work surface locks securely in position.

MOVE. Reaction allows you to quickly reconfigure tables in your space adapting to varied teaching and learning styles. In addition, flip, nest and roll Reaction to a corner to utilize the space in a completely new way.

NEST. Simply nest the tables together to create more space. The small footprint maximizes storage space.

ADAPT

Active classrooms require flexible furniture solutions that support collaboration and assessment situations. The lightweight frame and durable, locking casters allow users to create and endless possibility of configurations.

Reaction's clean and functional t-shape design and versatile work surface options provide the design flexibility you want.

OPTIONS & ACCESSORIES

WIRE MANAGEMENT BEAM

An open, die cast aluminium j-trough system allows connections from table to table. Disconnect and re-connect faster than ever before.

POWER & DATA

Choose from an array of power and data flip-up ports or grommets to quickly provide power and data to today's technologies.

PRIVACY

The optional fabric modesty panel provides privacy, and maintains position while in use or in the flipped down position.

WORK SURFACES

Pick from our wide variety of standard laminate, veneer and thermofoil finishes - can't find what you want? No problem, let us know what you're looking for and we'll deliver! we can even do customized shapes and sizes.
