

A bedside cabinet shown in a Hospice room. Hospice rooms offer a bright cottage-style atmosphere featuring bright colors and light wood-tones.

Vanerum • Stelter tables are found throughout the facility. Here an X-base is placed in a social lounge where residents can play games.

Each patient has access to a personal wardrobe. Long-term and short-term care rooms feature cherry laminate.

Healthcare Furnishings: Long-Term Care, Short-Term Care & Hospice Facility

SITUATION

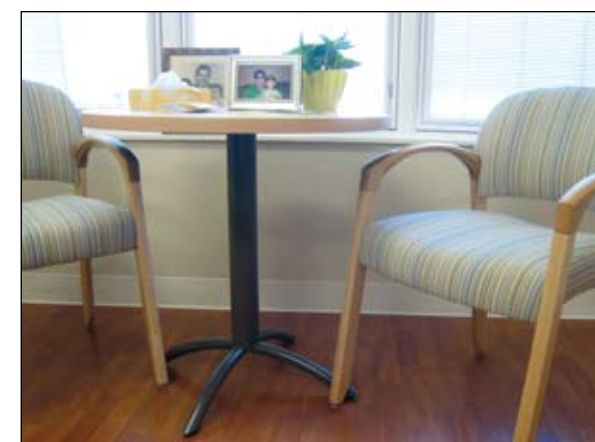

A long-term and short-term care facility was relocating to a brand new facility and expanding. Located in a natural setting surrounded by sand dunes, the facility creates a home-like atmosphere with a touch of beach cottage appeal. Healthcare furnishings were needed that reflect the right style and hit the right price points.

SOLUTION

We responded by offering a variety of solutions for patient rooms and lounge areas. Vanerum•Stelter provided options for every table application in the facility. Matching wardrobes and night stands were the perfect choice for patient room storage.

RESULT

Vanerum•Stelter tables were made the standard for the project and many were purchased. Patient room furnishings specified also included wardrobe cabinets and bedside cabinets. The customer and dealer were impressed and pleased with the quality of the products and service offered by StelterPartners. Installation was 100% on time.

A small round arch X-base table is used as a side table in patient rooms.

The private Hospice House kitchenettes give residents and visitors a cozy place to share a meal.
