

CURVE | DESKS

The simple design of the Curve desk just might be the perfect solution for individual student seating. The sturdy cantilever style allows students to quickly move in and out of seated positions. It's bent tube construction maximizes strength and durability, while fixed and height adjustable models accommodate students of every size.

FEATURES / BENEFITS

- Single bent tube construction maximizes strength and durability
- Pin height adjustable to five (5) heights
- Durable powder coat finish
- Available with Greenguard certified High Pressure Laminate, Thermofoil, and Hard Plastic work surface with pencil groove
- Work surface shapes include rectangle and belly curve
- Integrated bag hook on adjustable model
- Storage options include wire book rack and book box

CURVE | DESKS

CONSTRUCTION

WORK SURFACE – LAMINATE

- 1.125" table top thickness
- Standard core construction is 44lb. density particle board
- 2" radius corners standard; square edge standard available
- 3mm vinyl edgeband applied with medium-viscosity, high-melt adhesive
- Greenguard certified High Pressure Laminate standard with matching edge band

WORK SURFACE – THERMOFOIL

- 1" thick (optional ¾") PVC Thermofoil surface
- Core is 31–55lb. Medium Density Fiberboard (MDF)
- Foil seamlessly covers surface faces and edges
- Sealed with a speciality topcoat formulated to improve performance
- Thermally-fused melamine underside for superior screw strength
- Additional finishes available; call for quote & lead time

WORK SURFACE – HARD PLASTIC

- Durable, seamless construction
- 5/8" thick solid melamine hard plastic surface

GLIDE

- 1" x 2" nylon slide caps, riveted to tube
- Rear of frame equipped with anti-tilt saddle foot, riveted to tube
- Available with felt inserts

FRAME - FIXED

- 1.25" diameter one piece C-frame design
- Weldless construction is 13 gauge steel tube with rotary bend
- Fixed frames available in three different heights
- Secured to surface with #14 self tapping screws and steel straps
- Durable powder coat finished
- Push button adjusts height in 1.5" increments
- Adjustable model includes crossbar with integrated bag hook

FRAME - ADJUSTABLE

- 1.25" diameter two piece C-frame design
- 13 gauge steel tube with rotary bend
- Adjustable from 24"–30" via push button in 1.5" increments
- Secured to surface with #14 self tapping screws and steel straps
- Durable powder coat finished
- Crossbar with integrated bag hook MIG welded to frame

DIMENSIONS

height(s): 23", 26", 29", 24"–30"

rectangle – width(s): 24" | depth(s): 18" | height(s): 23", 26", 29", 24"–30"

belly curve – width(s): 25.5" | depth(s): 19"

ADA B.C – height: 30" | depth: 20" | width: 30"
