 Footprint Depth: 52"

WORKSURFACE & BENCH SPECIFICATIONS

- ¾" particle board core with high pressure laminate worksurface and radius corners
- Edge is sealed with polyurethane composition treatment to provide sealed edge
- Top is secured to frame with #10 x ¾" screws, 9" on centers

BASE SPECIFICATIONS

- 14-gauge self-supporting, MIG welded, unitized frame
- 1.25" and 1.5" steel tubing
- Lock plates are 8 gauge steel, laser cut to exact tolerance.
- Aprons are 2" high and C-shaped, made of 14 gauge steel
- All assembly points are attached with grade 5 hex machine bolts
- Metal is finished with epoxy powder coat
- Non-tip device allows table to be folded flat for minimum storage space
- Equipped with compression springs to assist in opening and closing tables

CASTER SPECIFICATIONS

- Table rests on six 4" x 1.25" wide rubber, non-marring, ball-bearing swivel casters
- Rubber-tipped stability bars prevents table from shifting when in use
