FINISH OPTIONS

The Column Board is available in chalk or white board with all visible steel parts powder coated in white-grey.

DIMENSIONS

Width: 200cm, 250cm, 300cm, 400cm
Height: 100cm, 120cm

SURFACE SPECIFICATIONS

- Sandwich construction with honeycomb core makes surface solid but also lightweight
- Surfaces finished in green for chalk, white P3 ceramic steel for dry-erase markers or cork board for push pins
- Stove-enameled aluminum sections and plastic corners are sealed against water penetration
- Aluminum chalk shelf and dust trays come standard with rounded plastic caps
- Rounded corner pieces and end caps are used to ensure maximum safety
- Available in single, double, and triple layer versions

COLUMN SPECIFICATIONS

- Lightweight, stove-enameled aluminum columns
- Each column equipped with 120mm lower stop and 200mm upper stop
- Sliding mechanism consists of maintenance-free precision section guide tracks with spring stops at the travel limits
- Pulley, cable, spring stops and counterweights are fitted invisibly inside the pillar
- Quiet up and down height adjustment
- Unique counterweight system ensures steady rest in the chosen position

FINISHING SPECIFICATIONS

- All pillars, frames and visible steel parts are epoxy powder coated in white-grey color
