CONSTRUCTION SPECIFICATIONS

- Available in three models: armless, barstool height and armchair
- Wood reveal back behind upholstery
- Chair frames are manufactured of European beech
- Upholstered seat features 2" of high resilient upholstery foam, CAL 117 fire retardant
- COM yardage: 1.75
- All wood chairs meet or exceed BIFMA/ANSI strength standards
- Mortise-and-tenon construction
- Back legs are glued, screwed, and "blind bolted" together with hardened nuts and bolts
- All connections camouflaged with grain plug to match finish of surrounding wood
- Under seat, corner blocks are adhered at an angle for exceptional strength
- Metal carpet glides are standard
