
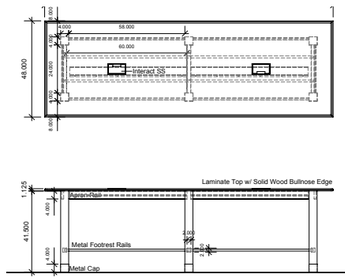
Above, the community table has a laminate top with a solid wood edge and features two power outlets. The base of the table has a stability building footrest.

Both tables have color-matched veneer bases with chrome accents.

The second table has a granite top.
The base features a magazine shelf.



Detailed drawings and color renderings created by Studio designers ensure accurate manufacturing of custom products.

Veneer Hotel Tables

SITUATION
A hotel was working with a furniture dealership to remodel its lobby. The interior designer on the project had a specific concept in mind for two standing-height community tables. The team was faced with the challenge of finding a manufacturer to design, engineer and build the tables.

SOLUTION
Timing could not have been more perfect. The Vanerum•Stelter relationship manger presented Studio's services and portfolio to the dealership and their challenge was solved. Where no other manufacturer could respond, Studio provided detailed drawings and full color renderings for the community tables.

RESULT
The dealer is astounded by the service and exquisite product provided by Vanerum•Stelter's Studio.
